969 Market Venue @ The Village in the heart of San Francisco is a fully customizable venue for all your event needs...The 17,000 sq. ft Building is a state-of-the-art venue featuring 3 floors and a overall capacity of 1,300. Perfect for receptions, banquets, corporate team building, user conferences, private parties, auto displays... The Historic San Francisco venue has had a multi-million dollar rebuild including solar panels. The venue was designed with event planners needs in mind: separate levels for creating different environments to foster the evolution of storytelling through interactive media, multiple exits for each floor, and easy access for cars and load-ins. Madrone Studio's, the exclusive, in-house audio-visual vendor has equipped the venue with projection, lighting, Meyer sound equipment, motion picture and interactive technologies for sophisticated, architectural projection mapping. Special features: -Create visually captivating events using our in house A/V projections, reactive displays and immersive technologies brought to you by Madrone Studios -In-house Beverage Service & Onsite Catering Available - 1000 Amp 3 phase electric service - High Speed Internet/up to 1 Gbps & 3000 devices - Short Walk to Moscone Conference Center - Natural light - Conference room - Easy load in from the street - Auto size freight elevator for all 3 floors - Auto turntable - You can load in cars into the building - Full service offerings & event support
