With a name like the Argonaut, it's impossible not to speak of this hotel in grand, almost legendary terms. Inspired by the Greek legend and Gold Rush-era adventurers, it's one of those rare places in San Francisco that truly merits a term like iconic. Located in the historic Haslett Warehouse, the Argonaut's home is a grand building built in 1907 of exposed brick, Douglas Fir beams and so much seaside character, you feel as though you can almost reach out and touch the colorful Barbary Coast past here.Our boutique hotel is also celebrated for an unsurpassed level of 4-Diamond Kimpton-style service and amenities that provide an unforgettable destination experience. Couple that with a positively perfect location at San Francisco's most famous address -- perched on the edge of the Bay at Fisherman's Wharf -- and its easy to see why the hotel is so coveted.

Room	Reception	Banquet	Theater	Classroom	Conference	U-Shape	Sq feet	Dim
